X_N006	5-May-21		NMC05 - 34/F, Hong Wah Court Block B Yee Hong House	77	Leq(30-min)	when one documented complaint was received.	75	<p>Possible reason: Drilling works at the edge of the slope with partially coverage of noise barrier at the slope of Lin Tak Road</p> <p>Action taken / to be taken: Repeat measurement to confirm result and reviewed the trend of noise measurement. Analysis of contractor's working procedure. Additional monitoring was conducted on 06 May 2021 and no exceedance was recorded.</p> <p>Remarks / Other Obs: Drilling and splitting works at RIW3 were conducted under Contract NE/2017/03 around the concerned location during the time of measurement. The drilling works at Lin Tak Road was identified as the major noise source causing the exceedance by the observation during measurement on 05 May 2021. The working area of the driller was not fully covering by noise barrier or other mitigation measures for minimising the construction noise so that it was the major causes of the exceedance. As such, the exceedance was considered as project related.</p>
